# LSWC News in Brief

At the end of August the Club held one of its ever popular BBQs this time a special one to celebrate the clubs 100<sup>th</sup> Birthday.

Many thanks to Pam G<sub>4</sub>STO, Linda ( Andy MoKEDs better half ), Jackie ( Roger G<sub>3</sub>PVUs better half ) Steve M<sub>5</sub>ZZZ, Andy MoKED, and Les G<sub>1</sub>LQB for their hard work. Making the day such a great success.

GB<sub>2</sub>CWP has been on the air, Steve M<sub>5</sub>ZZZ and David G<sub>1</sub>WVO opening the East Kirkby Shack with visitors trying to send their name in morse and Brian G<sub>4</sub>HIV demonstrating the R<sub>1155</sub> / T<sub>1154</sub> to them.

The East Kirkby shack is open again on October 19<sup>th</sup>.

The filming day at East Kirkby was a great success thanks to the hard work of Peter MoEJL who organized the event for the Club. One North the TV production company were filming Guy Martin doing the different jobs on the Lancaster. We were involved in Guy sending CW from the 1154/1155 in the shack up to the control tower then a message was returned from the control tower. Many thanks to those involved in the filming day and the preparations including a rehearsal Peter MoEJL, Tom G<sub>4</sub>OSB, Andy MoKED, Roger GPVU, David G<sub>1</sub>WVO and Steve M<sub>5</sub>ZZZ, Pam G<sub>4</sub>STO.

The main mast and all its antennas at Aisthorpe has been dropped and some repairs made where a few bolts were coming loose or missing and it has been returned to service, the leaking wooden shed roof has been sealed.

We are looking to move the green shed very soon some help would be appreciated at that time if you are free.

The Club took part in an FT8 contest on 2 meters with members also looking on to see how the mode worked.

We held a morning demonstrating portable equipment and attempting to recruit members for a portable radio group within the club. Aiming to do parks on the air and such. Thanks for all the support its great to see some CW operators wanting to take part as a mix of CW and SSB at an activation will be really good.

More on this to follow.

The Club has purchased the N3FJP logging program and a QRZ subscription to make logging in the shack and at special event stations easier.

Preparations are ongoing for the club to run a rally in Wragby town hall on the 30<sup>th</sup> of January 2022 Graham M1DVH and Steve M5ZZZ are kindly working on this for us. More information to follow.

We have agreed to take part in special event stations to commemorate the 80<sup>th</sup> anniversary of the Lancaster coming into service next year at East Kirkby and Scampton running an SES at Scampton Bomb dump and the national SSES station GB8oLAN from East Kirkby.

We have the used equipment sale coming up on October the 9<sup>th</sup> help setting up in the morning would be appreciated. We aim to keep as much social distancing at the sale as possible so the set up will be more difficult than usual.

Don't forget this years construction contest is coming up (24<sup>th</sup> of November ) so get building that flux capacitor ATU now.

Take care
